

# 16160/V Ergon Junior

Pediatric variable geometry comfort stretcher - green/blue

## FEATURES

[Visit Ergon website](#)

The greatest product for the smallest patients

ERGON shares its advanced technology with the **junior model**. All benefits and main features of the adult stretcher are preserved in its Junior version.

The **Flexilock locking system** was moved from the centre to the side, in order to allow operations without invading the head space. The large blade allows for maximum comfort even to pediatric patients.
